LNTM No.	019/2019
Subject	Survey Operations Guernsey to Jersey

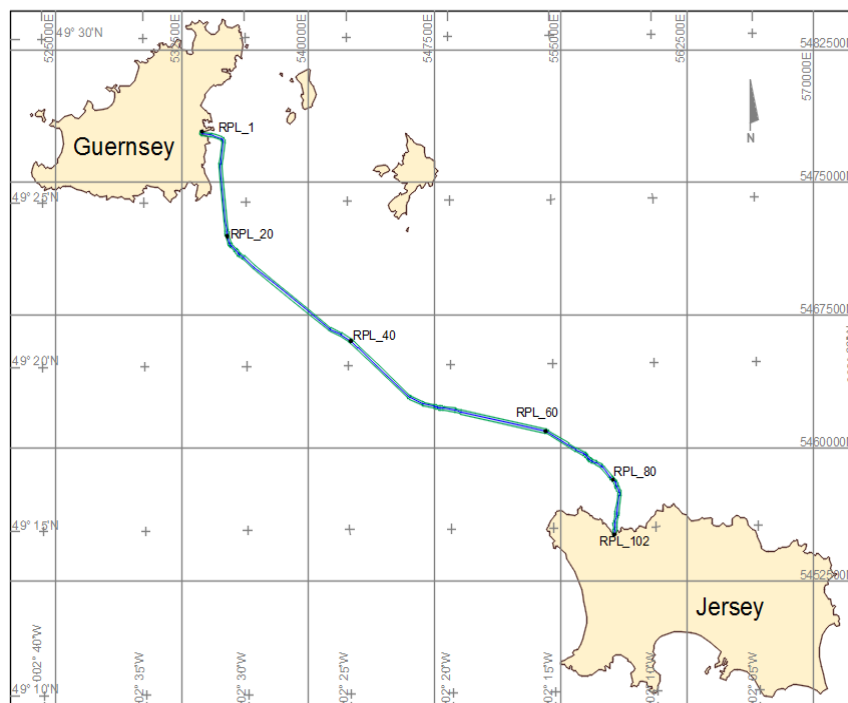

Vessel: “NKT Victoria”

Route Clearance Operations

NKT High Voltage cables AB is, on behalf of Guernsey Electricity Ltd, installing a submarine power cable between Saint Peter Port, Guernsey and Greve de Lecq, Jersey.

As part of this work a route clearance will be performed within in a 50 m corridor at locations along the cable route as indicated in the figure below.

The Route Clearance is scheduled to be carried out between the 2nd – 9th September 2019. The programme may however need to be extended to take in consideration any technical or weather down time. A further update will be issued if this contingency is activated.

Local Notices to Mariners

NKT Victoria

The vessel used for the route clearing is the NKT Victoria which is a Norwegian flagged, 140 m vessel with considerable experience conducting similar works throughout the world.

The vessel holds all certificates of relevance to her class for the purposes of this work.

The NKT Victoria will operate towed route clearance equipment and due to this have limited Manoeuvrability.

There is a working area 250 m either side of the cable route centreline coordinates given by the route position list above and other seafarers are requested to keep clear during these operations.

Name NKT Victoria

MMSI 257016000

Call Sign LAWV7

AIS type Other

Launched 2017

Dimensions 140x30 m

Draught 7, 2 m

Cruising Speed 11 knots
